Interpretation Request #12

Topic: Defect in XCU yacc **Relevant Sections:** yacc token

There is a typo here: "token" should be "%token" at start of line. (This typo is not present in the online Single Unix Specification version 2 or in ISO/IEC 9945-2:1993.) Change "token" to "%token".

Interpretation Response

The standards states "token", and conforming implementations must conform to this. However, concerns have been raised about this which are being referred to the sponsor.

Rationale for Interpretation

None.
